I don't know that we can impose that. Starr is clearly being paid by ACC to do this work. I see no problem w ACC representatives being at the meeting. They will have prescimmaged w Starr anyway. We may as well be transparent about it.

I would be in favor of that. However, I do think that somehow the record needs to reflect that the participation of said scientists was completely paid for by ACC.

Subject: a suggestion regarding interaction with ACC

I have a suggestion regarding the August 27 meeting with Swenberg and Starr. Since the purpose is to seek clarification on science questions EPA has on a published work, our interaction can be restricted to be solely with the relevant scientists. We do not need to have ACC

managers present at this meeting.

Ravi.
